DESCRIPTION

The Anubis 3D Scara Cover Kit is designed specifically to fit Fanuc's SR-6iA Scara Robot. It is constructed to fully seal both the upper and lower sections of SR-6iA Robot including the vertical actuating quill. Manufactured from Nylon-12 plastic, the upper portion of the shield houses pneumatic fittings to allow airlines pass through the upper quill while the lower section of SR-6iA quill is covered with the clean translucent white bellow. The kit includes all fasteners and is easily installed via the existing robot's assembly points.

FEATURES AND BENEFITS

- Fully encloses robot components, including the quill.
- 3 pneumatic pass-through fittings included.
- Alternative pass-through fittings for communication cables are available.
- All fasteners included and installs easily to existing robot assembly points.
- Dedicated vacuum connection to provide negative pressure.
- 6 Month Limited Warranty Included.
